# First Announcement

## 3d Asian VCSEL-Day 2025

To all members of the Asian VCSEL community

We are excited to announce the upcoming 3rd Annual Asian VCSEL Day, scheduled to take place on **October 13th and 14th 2025**, which is organized by "Bimberg Chinese-German Center for Green Photonics" of Chinese Academy of sciences at CIOMP in Changchun .

The 1st and 2nd Asian VCSEL Day Conferences, held I2023 and 2024, brought together 250 leading experts, researchers, and industry professionals from across Asia to share their knowledge and insights on VCSELS and progress on applications in systems. The event provided an excellent platform for fruitful exchange of ideas and fostered valuable connections among members of our community based on a series of invited talks.

Building upon the success of the first two events, we invite you to join us again for insightful discussions, networking, and collaboration with or within the VCSEL industry. Together, we will continue to drive innovation in VCSEL technologies and their applications in systems.

Please let us know by the beginning of August informally about your interest to participate (see attachment).

Kind regards

Prof. Dr. Dieter Bimberg and Prof. Dr. Fumio Koyama  
Co-Chairs of Asian VCSEL-Day 2025
